Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Saturday 18 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Occasional rain in the west and north. Clear spells elsewhere.

This Evening and Tonight:
Patchy, showery rain across parts of the west and north this evening becoming heavy in places tonight. Elsewhere clear spells with some mist and perhaps patchy fog in some parts. Chance of showers arriving across southern areas towards dawn.

Sunday:
Bands of cloud and patchy rain edging east, with heavy, perhaps thundery, downpours likely across parts of eastern England later. Further west it should gradually turn drier and brighter.

Outlook for Monday to Wednesday:
Showers in places Monday, but most areas dry with sunny spells. Mostly fine and dry Tuesday before outbreaks of rain spread southeastward Wednesday. Strong winds in the north at times.
